DRASTIC TAX TO MEET WAR COST

2 Boys Drive Stolen Truck Into Quarry

Trousers' Laundrymark
Furnishes Clue After
All Day Search

Two young men confessed to Detective Dan Blau at noon today that they drove a stolen truck into the quarry off Jeffery street early this morning. They say it was an accident.

The confession halted efforts to trace the truck from 30 feet of water on the assumption there were bodies in it.

The youths who are held in the city jail are Leo Scanlon, 19, of 1095 South Fifth street, and Robert Butler, 16, of 905 South Fifth street.

The confession to Blau at 10:30 a.m. last night by teen-agers Delbert Koerner's truck from in front of his home at 826 South Third street and drove it to the quarry where they were swimming.

Jumped In Time

When they got ready to leave, Scanlon said he stepped on the starter. The motor was in gear, he said, and the truck plunged into the water. He said he and his companion jumped out just in time.

Scanlon was wearing trousers while swimming. When he prepared to leave he threw them on the back of the truck to dry. When the truck plunged into the water the trousers floated on the water.

In the quarry were keys stolen by Scanlon and another youth — for whom Blau was searching this afternoon from the auto of James H. Stupak, 900 Poplar avenue, earlier in the evening.

Detective Blau learned that a dry cleaning mark on the trousers had been registered in the name of Edward Johnson, 25, who formerly lived at the Scanlon home. Questioning Johnson, the officer learned he had given the trousers to Scanlon about a month ago. The arrests followed.

Makes Surface Dives

Robert Scanlon, who resides in a cottage along the river south of Kankakee, an expert swimmer, made surface dives this morning when it was thought bodies might be found in the truck, but said he could not go down far enough to see what was in the truck.

It was the intention of Coroner A. F. Kerner, city police and deputy sheriff, to attempt reaching the truck with a heavy hook, then use a winch to bring it to the surface.

Six young men swimming in the quarry on the north side heard the

Injunction Suit Says Skating Rink Public Nuisance

A subpoenaing the circuit court for an injunction restraining the operation of a skating rink and dance hall, with damages of \$5,000, was filed today by ten residents of Woodlawn park near Bradley.

Robert H. Weaver, Donald LaCost and Alvin Lewis, operators of the rink and dance hall, are named defendants.

The plaintiffs are Martin Gohl, Clara Gohl, Emma Mike and seven other residents of Woodlawn park. They are represented by the law firm of Burns & Curran.

The complaint alleges that the rink and pavilion are in operation during the afternoon and evening and sometimes as late as 2 o'clock in the morning.

That the noise from skating and the music are so loud as to drown out voices and conversation.

That the lights from the establishment are so bright as to enable the complainants to read a newspaper from them.

That the establishment's toilets are unsanitary, that auto traffic is congested and that lights from autos shine on nearby homes.

Will Name 2 Queens For Momence Gladiolus Festival

Not one queen, but two, will be selected during the third annual gladiolus festival of Momence on Aug. 8, 9 and 10.

One of the queens will be selected from among the daughters of gladiolus growers, the other from among Momence young women.

The two will be guests of the C. E. & L. railway for two days in Chicago, will appear on radio programs and distribute flowers to shut-ins.

Aug. 10 will be American Legion day of the festival, with a drum and bugle corps contest, a baton twirling contest and the giving away of an automobile.

Boat Pageant

Other features of the festival will be a floral boat pageant, speedboat

Nazis Say "Dice Are Cast" Against Britain

Girl Slain

Slain and jammed into an old oil drum, the body of blonde, 14-year-old Jane Massey (above), daughter of U. S. army sergeant, was found in a ravine a few blocks from her home on the military reservation at Fort Snelling, Minn. She was strangled with her own underwear, but it was not determined whether she had been criminally assaulted.

Compulsory Military Training

Washington, July 23 — (AP) — The senate military committee gave its approval today to comprehensive compulsory military training calling for registration of 42,000,000 men between 18 and 64 years.

Chairman Sheppard (D-Tex.) said the committee expected to work out all details of the training legislation tomorrow and have the bill ready for senate action next week.

War department spokesmen said the system contemplated actual military training to be limited to about 1,500,000 men between 21 and 30 years during the first year, selected from a group estimated to number 11,500,000.

The committee revised the Burke-Wadsworth bill to provide a 12-month training period for conscripts and pay them \$21 a month while on duty, as suggested by the army.

The 12-month period was a compromise between the 18 months asked for by Gen. George C. Marshall, chief of staff, and the eight months provided for in the original measure for eligible men from 18 to 45 years. They would have been paid but \$5 a month.

Grant Park Church Has Picnic Sunday

Sunday St. Peter Evangelical and Reformed church of Grant Park will have its annual church and Sunday school picnic at Campbell's grove located a few blocks south of the church.

The day will begin with a morning worship service at the picnic grounds at 10:45 o'clock. Dinner and supper will be served by the women of the church.

A variety of games and athletic events including a baseball game will provide entertainment as well as a musical program in the afternoon. There will be a loud speaking system installed to enable all to hear the program. The church school orchestra and the choir will present the musical part of the entertainment.

There will be stands and refreshments available on the grounds.

Says Collapse Of Germany Is Inevitable

London, July 23 — (AP) — Dr. Eduard Beneš, president of the newly-reorganized Czechoslovak provisional government, predicted today that the collapse of Germany is "absolutely inevitable."

What was said yesterday by Lord Halifax is really true, he said in an interview. "Britain is going to fight this out and we are going to fight with them."

He made no guess about what steps the United States would take in connection with his government, but observed that the United States never recognized the Nazi invasion and that the Czech legation was still functioning in Washington.

Beneš said he agreed with Hitler on one thing—that democracy and Nazism cannot exist together in Europe.

"One or the other must go," he said, "and I am absolutely sure which will go. We shall live in Czechoslovakia again."

Beneš, former President of Czechoslovakia and one time president of the assembly of the League of Nations, said he still is a member of the faculty of the University of Chicago.

Churchill Backs Final Answer To Adolph Hitler

Delivered Yesterday By Foreign Secretary Lord Halifax

BY THE ASSOCIATED PRESS

Prime Minister Winston Churchill today affirmed Britain's "final answer to Adolf Hitler today—a fight to the finish against Nazi conquest."

By avoiding comment during the question period in the House of Commons, Churchill indicated that the empire's last word in reply to Hitler's appeal for a Nazi-dictated peace had been spoken yesterday by Foreign Secretary Lord Halifax.

Authoritative quarters in Berlin previously had said Hitler would hold off the "zero hour" for Britain's destruction only until after Halifax and Churchill had spoken.

Even as Churchill thus ended all talk of peace, German planes showed fire-bombs on British cities in widespread attacks and Nazis in Berlin declared "the dice are cast" for a blitzkrieg against Britain.

Income Tax Boost

The staggering cost of the war to Britain was high-lighted when Chancellor of the Exchequer Sir Kingsley Wood announced a one-shilling increase in the British income tax to eight shillings six pence per pound—a basic tax of 42 1/2 per cent.

Sir Kingsley presided in emergency budget to meet expenditures of about \$35,600,000 a day.

Hitler's high command said Nazi warplanes bombed the cities of Edinburgh—capital of Scotland and ancient seat of Scottish kings—Aberdeen, Chatham and Sheerness, and attacked airbases near Portsmouth and Bristol.

The Berlin radio, anticipating Prime Minister Churchill's reply to Hitler's reichstag speech today, declared:

"The view now prevailing in Berlin is that by the speech of (Foreign Secretary) Lord Halifax as well as by the fact that recent British bombing attacks on non-military objectives in Germany have been increasing by leaps and bounds, Churchill has made his reply in his own way."

With German raiders droning across the channel throughout the night, dropping bombs on shipping and countryside, British fighters were described as "continually racing out to sea" to drive them back.

Face Anti-Aircraft Fire

A dozen swastika-marked planes flew over Wales at one time—the biggest sky attack there since the war started—but they fled, dropping many of their bombs in open fields, in the face of hot anti-aircraft fire.

DNB, the official German news agency, commenting on strong British raids over Germany, declared: "These air attacks show that Churchill wants to demonstrate to the German people what he regards as a proper answer" to Hitler's last-chance offer of a Nazi-dictated peace.

The news agency said RAF bombers had killed civilians in Bremen, Hamburg, Wiesbaden and Schwern, while other attacks were directed at Kassel, Hanover, Pinner.

Phoenix, Arizona High

Phoenix, Ariz., reported a high yesterday of 112 degrees, and Yuma, Ariz., 110. It was 105 at Rapid City, N. D., and 103 at Minneapolis and St. Paul. Five Montana cities had readings of 100 or above. Miles City topped the list with 105.

(Continued on page two)

Dry Weather Causes Grass, Rubbish, Fires

Firemen answered two calls yesterday afternoon. One call was received at 2:15 p. m. and was from the home of John Brown, 48 miles east of Kankakee on route 17, where a grass fire was raging.

The flames were quickly put out. The other call was received at 3:05 p. m. at the home of Forrest Pearson, 551 South Chicago avenue, where rubbish was burning.

Truck number 1 answered the call and extinguished the blaze without damage.

Societies To Benefit In Powers Will

The will of Mrs. Jessie Powers Holmes, late of Kankakee, which was filed today, disposes of a \$16,000 estate, the bulk of which goes to minor children of nieces living in California. John A. Mayhew is the attorney.

To these nieces, Jessie Powers Bell and Harriet Powers Singer, both of Santa Monica, go \$100 each, china and table silver. To the testator's friend, Mrs. Eunice Rogers, goes her personal effects.

To the following organizations \$25 each is given—Native Daughters of Illinois, Daughters of the American Revolution, Huguenot Society of South Carolina, Daughters of American Colonists, Chicago Colony of New England Women, Descendants of Pioneer Women, Colonial Dames of the 17th Century, Ladies of the G. A. R. United States Daughters of 1812, the Woman's Relief Corps, the auxiliary to the Brotherhood of Locomotive Engineers, and the Woman's Bible class of First Baptist church.

The household furnishings and her automobile go to General Grant, colored servant of many years.

The will provides that not more than \$10 a month be spent for care of her dog Jackie by General Grant. The dog, however, predeceased his mistress.

The real estate is to be sold by L. B. Rogers, the executor, and the proceeds held in trust for a niece Caroline Singer and a nephew Robert Bell until they are 18 years of age.

Deaths Mounting As Heat Wave Blankets Nation

Thunderstorms Furnish Only Temporary Relief In Scattered Areas

By The Associated Press

Scattered thundershowers giving only temporary and slight relief from the heat wave was the best the weatherman could offer the sweltering nation today.

The U. S. weather bureau at Chicago reported that the protracted hot spell, now a week old for some wilted regions, probably would continue for at least three days more.

Virtually all the nation east of the Rockies suffered from the sizzling heat. Temperatures of 100 or higher were reported yesterday from such scattered points as Montana, Minnesota and Arizona.

Death Toll Heavy

At least 180 deaths were attributed, directly or indirectly, to the torrid weather. Thirty-one persons in 12 states were listed as heat victims. In 31 states there were 149 drowning victims among the millions who sought relief at the water.

A. E. Anderson, state-federal agricultural statistician at Omaha, Neb., said the heat wave was creating a serious crop situation in that region. He reported that even sudan, a drought-resisting sorghum, was beginning to suffer.

High winds and hail damaged crops and caused other property losses in Massachusetts, Maine, New Hampshire and Connecticut. Hail damage to Connecticut river valley tobacco crops was estimated at \$150,000 to \$300,000.

Renew Appeal For Refugee Funds

An urgent appeal was made by the Salvation Army board today to Kankakee citizens for support of its war service fund. The board reports that thousands of Salvation Army workers are caring for refugees and adding troops but are badly handicapped by a lack of proper equipment and funds.

The board asks all who can possibly give aid to send contributions at once to Post Office Box 194, Kankakee.

Kiwanians Name Hammes Delegate

The Kiwanis club met Monday noon in McBurn's cafe with President Rolfe Rollison presiding.

Romy Hammes was appointed to attend a meeting of the Chicago Kiwanis club Thursday when Mark A. Smith, international president of the Kiwanis club, will be present.

Plans were discussed to send delegates to the state convention at Peoria in August and for sending 25 boys to Camp Rotary at Morris.

Members of the club were also invited to inspect Camp Pottawatomie on the Tippecanoe river in Indiana where members of the Kankakee high school band will vacation in August.

Lack Of Rain, Chinch Bugs Threaten Crops

City Gets 41-100 Inch Rainfall But Rural Districts Get None

In spite of rain last night Kankakee county farmers are still looking toward the sky with hopes of longer downpours, for not only are crops endangered by drought but chinch bugs have again infested wheat, oats and corn crops throughout the county.

P. M. Davis, chairman of the Kankakee County Conservation association, stated today that chinch bugs have so far destroyed at least 50 per cent of the wheat crop in the county. He also said that oats have been infested and corn is beginning to show signs of damage.

"Unless rains come," Mr. Davis said, "further damage to oats and corn will occur. The wheat, which still stands today will not be greatly damaged for it has become tough and hard, and chinch bugs will not eat it, but corn and oats are still in danger."

In Limited Area

Last night's rain of 41-100 of an inch is not considered heavy enough to halt the bugs. Moreover the rain did not extend beyond Bradley on the north and West Kankakee on the west. The greatest damage to crops has been in the western townships of Essex and Norton, and the northern townships of Mokena, Yellowhead and Pembroke.

Showers were scattered in most of these places so light as to not be called rain at all.

Mr. Davis explained that when rain occurs on the hardened and cracked earth the chinch bugs are washed into the cracks and are unable to get out. He said that farmers have tried various spraying methods but as yet have not found a spray that effectively combats the pests.

Chinch bugs suck the sap out of the crops and in order to poison the bugs farmers would also have to poison the crops and, in so doing, destroy them.

Best Treatment

The most effective method found for treating the bugs is to dig ditches around the infested area and line the outside ridge with creosote. Post holes are dug at intervals of a few feet in the ditch. The bugs will not cross the creosote as it burns them and as they fall into the post holes farmers burn them with torches.

Mr. Davis pointed out that chinch bugs damage crops only when they are in their infant stage, at which time they are reddish in color. As the bugs grow older they sprout wings and can fly across the creosote barriers but in this stage do not feed on the crops. In this stage they lay eggs but usually become so spread out in flight that little damage results.

Destroying dead stumps, hedge fences, rubbish, and grass helps to combat the bugs for it is in these places that they hibernate. Mr. Davis added that except for this year chinch bugs have not been very active since 1934 and 1935.

When Attorney Alfred Krusemark of Joliet, one of Mrs. Rasche's attorneys, engaged in a wordy battle with Attorney Victor Lauridsen, representing Mr. Rasche, a courtroom full of men and women from Crete and Grant Park applauded for the Joliet attorney.

Mrs. Rasche also is represented by Attorney Harry S. Streeter, Judge Luther B. Bratton is hearing the case.

Smith, Raskob And Shouse May Actively Support Willkie

New York, July 23 — (AP) — A strategy conference of three prominent Democrats, all of them anti-New Deal in their sentiments, today caused their close friends to predict that shortly they might announce active support of Wendell L. Willkie, the Republican nominee.

The men—Alfred E. Smith, the 28 Democratic presidential candidate; John J. Raskob, and Jovett Shouse—met for dinner last night and continued their conference until almost midnight. Afterward Shouse returned to Washington.

Raskob is a former chairman of the National Democratic committee and Shouse was at one time chairman of the executive committee of the national committee.

Smith, although aware of a story in the New York Herald Tribune which said that he would announce soon his opposition to a third term for President Roosevelt, did not make himself available for comment.

Raskob, in answer to the question "Have you decided yet on what stand you will take in the campaign?" said: "Not yet."

He would not discuss the subjects

Inter-American Mandate Over European Possessions Talked

By J. C. STARK

Havana, July 23 — (AP) — The United States delegation placed before the pan-American conference today a project designed to set up machinery immediately for an inter-American mandate over European possessions in this hemisphere.

The mandate would become effective in case such possessions were menaced with a change of sovereignty.

The United States project was submitted in the form of a proposed convention to bind the 21 American countries into a joint trusteeship of the various European colonies in this hemisphere.

A separate resolution called for the establishment of a committee to take over any possessions which might be menaced prior to ratification of the joint trusteeship by the convention.

These and other questions involving Pan-American defense were considered after Secretary of State Cordell Hull was selected president of the all-important peace preservation commission at the conference.

The committee headed by Hull was regarded as one of the most important formed by the conference as the 21 American republics moved under Hull's leadership to isolate the western hemisphere from Europe's war and totalitarian economic encroachment.

Spectators Cheer For Wife At Trial For Boy's Custody

A "cheering section" was on hand in circuit court this morning for a hearing on litigation arising out of the divorce in 1934 of Edwin Rasche of Sumner township and Mrs. Elsie Rasche, now of Crete.

At the time of the divorce Mrs. Rasche was given custody of a son Edwin, now 6 1/2 years, with the father having rights of visitation.

The father has since filed a petition for custody, which is being resisted by the mother. She also asks \$3 a week for maintenance and that her former husband pay attorney fees of the trial.

When Attorney Alfred Krusemark of Joliet, one of Mrs. Rasche's attorneys, engaged in a wordy battle with Attorney Victor Lauridsen, representing Mr. Rasche, a courtroom full of men and women from Crete and Grant Park applauded for the Joliet attorney.

Mrs. Rasche also is represented by Attorney Harry S. Streeter, Judge Luther B. Bratton is hearing the case.

Valentine Is Evidence In Divorce Suit

Mrs. Alice E. Dyer of Kankakee today filed for the circuit court an answer to the recent complaint for divorce filed by her husband Charles J. Dyer, who alleges cruelty.

Mrs. Dyer's answer, filed by Attorney Victor Lauridsen, charges that her husband had several rendezvous with a woman identified only as "Mrs. C."

Her answer also alleges that her husband received a valentine from "Mrs. C." Attorney Lauridsen has the valentine to use as evidence when the case is heard.

The husband is represented by Attorney Fred R. Stith.

Nothing More To Discuss Claims Nazi Command

Say British Fail To See Significance of Hitler's Speech

By FREDERICK C. OCHSNER
Berlin, July 23.—(UP)—German planes have been ordered to attack the British fleet in the North Sea, and a naval base the high command said today and that an authorized source said: "There is nothing more to discuss, the die is cast."

In reply to British refusal to talk peace on Adolf Hitler's terms, German planes yesterday raided the port of Pembroke, "with its oil tanks," Chatham, "important naval base," Plymouth, "important naval base," and "important naval base," Aberdeen and airfields near Portsmouth and the Bristol channel, according to the high command.

Quarters close to the Wilhelmstrasse, commenting on a speech by British Foreign Secretary Viscount Halifax as a final answer to a rejection of Hitler's terms, said:

"Our answer is yet to come. We think you will find today's high command communique interesting in this connection."

The communique described the German air raids and submarine attacks on British shipping.

Wilhelmstrasse quarters described Halifax's speech as "hypocritical" and high German quarters said that Hitler's armed forces were set for action.

"The communique described the German air raids and submarine attacks on British shipping."

"The communique described the German air raids and submarine attacks on British shipping."

U. S. Arsenal In Philadelphia Is At Peak Output

Philadelphia, July 23.—(INS)—The former antiquated machinery re-equipped by modern mass-production equipment, the Frankford Arsenal in Philadelphia is working close to capacity these days in the desperate race to arm America.

Almost a half-million rounds of small-arms ammunition leave the arsenal daily by freight car and truck. Thousands of brass cases to be filled with high explosives are turned out of the machine shops from the arsenal's fire-direction department come scores of pieces of fire-control equipment ranging from simple telescopic sights to crew-sight-mounted anti-aircraft directors.

All these implements of war are rushed into being through the miracle of mass production—a system which includes short-cut processing unknown during the first world war. One "short cut" for example, permits manufacture of three-inch aircraft shells at an unprecedented pace.

Senator Also Hints Opposition To Mobilizing National Guard

Millions Of Bushels Of Wheat Held Off Market: Program

Starts Campaign On Pea Planting For War Relief

"I've already started this campaign in my own home town," Pinson wrote T. A. Sims, state 4-H leader, in an effort to secure the cooperation of 112,000 4-H members throughout the state. "We have plenty of land offered for our use, and local seed dealers have given us seed."
